

Global reach. Personal touch.

Since 1968, Jokey has been synonymous with outstanding expertise in plastic injection moulding. As a family-owned company based in Wipperfürth, Germany, we are one of the world's largest manufacturers, innovators, and technology leaders in the field of rigid plastic packaging – and have been a pioneer in sustainable packaging for over 35 years.

A family built on strong values.

Down-to-earth company culture

Jokey is rooted in tradition and focused on the future. A global player with regional roots.

Honest and open communication

We value open, honest, and transparent dialogue. We see feedback as an opportunity to grow.

Quality and expertise

Our commitment to quality and expertise guides us in everything we do.

Ecological and social responsibility

As a family-owned business, we take responsibility for people and the environment by offering stable jobs and committing to sustainable business practices.

Forming the future

“

As our global reach has expanded, so has our responsibility – going far beyond the products we make.”

Jens Stadter
Chief Executive Officer (CEO)

Sustainability has been deeply rooted in Jokey’s corporate philosophy from the very beginning. As a medium-sized, family-owned business, we have always been particularly mindful of the broad responsibility that comes with this role.

We act with future generations in mind and ensure a responsible approach to the environment, nature, and people. For many years, we have consistently balanced ecological, economic, and social considerations. This is demonstrated, among other things, by the Jokey Eco Concept, through which we are paving the way toward a sustainable circular economy.
