# Jokey IML.

## You will be entranced.

Our new, exciting In-Mould Labelling will turn your packaging into a multi-sensory, intelligent marketing tool. Everything is possible: colours, aromas, look and feel – and now also interaction with smartphones, optimised scanner features and uncopyable security functions.

The future of packaging is currently being rewritten. Be part of it. With Jokey.

Order your personal IML sample packaging at:  
[sales@jokey.com](mailto:sales@jokey.com)

### Digital Watermark

The digital watermark offers the smartphone user an unparalleled wealth of additional information. The invisible mark is spread over the entire packaging. At the POS it replaces the barcode, resulting in time savings of 50% when scanning.

### Super Clear

As clear as glass: The super-transparent material looks upmarket and pure.

### Covering White

The covering white ensures the writing is easy to read.
