Dear Readers,

"Growing Together" was the motto for the grand opening ceremony of the new Jokey plant in Murcia, Spain. This brand new, state-of-the-art plant is the result of a joint collaboration of the entire Jokey Group. Five years ago, Jokey bought the small Spanish family business Trebolín Plásticos in Murcia. Planning for a larger plant with scalable capacity began immediately.

In the following years, with the help of Jokey Group, the Spanish team managed a number of challenges, including the pandemic and the move to the new production building without interrupting deliveries.

Today, we look with pride and satisfaction at what we have achieved. Jokey Ibérica is starting a bright future with the new production facility. The new plant offers every opportunity to grow further together with our customers from Spain, Portugal and Morocco. If required, the capacity of our already extensive machine equipment can be doubled. With this plant, we create the conditions to serve our customers in the future with high-quality packaging and the best service. Because "Growing Together" is a never-ending process. Our aim as part of the Jokey Group is to constantly develop and to support our customers with highly functional and sustainable packaging.

Yours sincerely,
Vicente Hernández
Plant General Manager
Jokey Ibérica

Opening ceremony at Jokey Ibérica

The newly built plant in southern Spain meets the latest standards of energy efficiency and sustainability. It currently has space for numerous injection molding machines, and its capacity can be increased in the long term as customer demand grows. The motto of the three-day celebration at the end of March was "Growing Together".

Jokey Global Clean-up Day

Let's get started together! Employees at the international Jokey plants said this to themselves. On March 18, 2022, they met for Jokey Global Clean-up Day to clean up the landscape around the plants from garbage. Supported by friends and family members, they collected diligently and enjoyed the day outdoors.

Jokey, Henkel and Akpol promote circular economy in Poland

Jokey Group has started a cooperation in Poland with Henkel Adhesives Technologies and Akpol, a Polish specialist in plastics recycling. The aim is to promote the circular economy in the plastics industry and the construction sector and to further consolidate sustainability along the entire value chain.

Closed loop partnership for Scandinavia

new loop

Danish impact start-up New Loop and Jokey are launching a full-scale circular economy: New Loop is using reusable take-away packaging from Jokey, which will be recycled after its lifecycle, to set up a digital deposit system in Scandinavia.
